EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Linda Hodge on January 2, 2003.

2. The application has been amended as follows:

IN THE CLAIMS

Cancel claims 22-37.

3. The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding the Sugiyama et al. ('075) reference in the Appeal Brief filed October 22, 2003 are persuasive. The Examiner agrees that the layer in Sugiyama et al. characterized as the "inner layer" by the previous Examiner is not analogous to the inner layer as claimed by Applicant in claim 2 (note paragraph spanning page 10 and 11 of the Appeal Brief). Even if it could be, there is no teaching that such "layer" has a lower elasticity than the "intermediate layer" (characterized by the previous Examiner as 30A) "so that the intermediate layer functions as cushioning between the inner layer and outer layer". This Examiner agrees with Applicant that there is no evidence of inherency that such "intermediate layer" has higher elasticity than such "inner layer". Thus, with no other reference of record anticipating or making obvious the

Art Unit: 3739

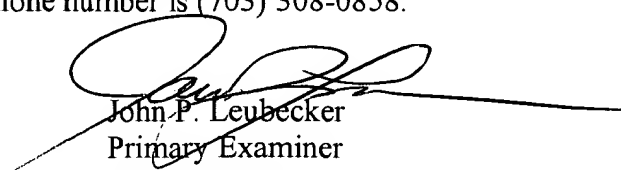

combination of elements of claim 2, claim 2 is deemed allowable. As to the objection of claim 12 made in the previous Office Action, paper number 10, this Examiner hereby withdraws such objection. Claim 2 recites an intermediate layer without specificity as to its construction. The Examiner takes the position that the recitation of claim 12 which adds that the intermediate layer is *formed of a material* does further limit the broader limitation of claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P. Leubecker whose telephone number is (703) 308-0951. The examiner can normally be reached on Monday through Friday, 6:00 AM to 2:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C.M. Dvorak can be reached on (703) 308-0994. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0858.
